GEORGIA BUDGET AND POLICY INSTITUTE SURVEY

DRAFT REPORT-PRELIMINARY RESULTS

CONDUCTED BY THE SPIA SURVEY RESEARCH CENTER

SEPTEMBER 3, 2020

M.V. HOOD III

PROFESSOR OF POLITICAL SCIENCE

AND

DIRECTOR, SPIA SURVEY RESEARCH CENTER
General Information:
The Georgia Budget and Policy Institute Poll was conducted August 26-31, 2020 and included a total of 1,071 (unweighted) registered voters in Georgia. The survey was administered by the School of Public and International Affairs Survey Research Center at the University of Georgia and relied on an online panel from Dynata Corporation. Respondents were sent an electronic invitation allowing them to voluntarily opt-in and participate in the survey. Respondents who reported they did not currently live in Georgia or who were not registered to vote in the state were screened out. Interviews were conducted in English. The survey results were weighted using iterative proportional raking in order to ensure the sample was representative of the registrant population in terms of race, sex, age, and education. The calculated margin of error for the total sample is +/-3.3 points at the 95% confidence level. The margin of error reported for this survey was computed using the standard SRS formula with an adjustment for the estimated design effect.¹ The survey design effect was calculated using the standard formula reported by the AAPOR.

¹This is one method suggested by APPOR for reporting uncertainty when dealing with nonprobability samples (https://www.aapor.org/getattachment/Education-Resources/For-Researchers/AAPOR_Guidance_Nonprob_Precision_042216.pdf.aspx).
Q1: Studies show quality pre-K education results in reading gains and skills critical for success in school. Do you support or oppose increasing funding for more slots in Georgia’s pre-K program?

Q6: The Childcare and Parent Services Scholarship helps families with the cost of child care while parents/guardians work, go to school, or participate in other work-related activities. This program currently serves about 13% of children under the age of 13 in low-income families. Do you support or oppose increasing state spending in the Childcare and Parent Services Scholarship program?

The Earned Income Tax Credit (EITC) is a federal benefit that reduces the amount of income tax owed by low to middle-income tax filers. Thirty states have created their own versions of the EITC to further reduce the amount of income tax low and middle-income residents pay. Do you support or oppose creating a state-level Earned Income Tax Credit for Georgians?
Q8: Technical colleges train students for jobs in industries such as manufacturing, health care, information technology, transportation, and logistics. Do you support or oppose providing technical college programs tuition-free in Georgia?

Q13: This year Georgia passed measures to apply sales tax to rideshare services like Uber and marketplace facilitators such as eBay and Etsy. Some online purchases like eBooks, software, and digital downloads are not taxed. Do you support or oppose a state sales tax for all online purchases of goods and services?

Q14: Each year the state of Georgia provides over $500 million in tax credits to film companies. About $80 million goes to companies based in Georgia. Companies are given the same incentive whether they hire workers from in or out of state. Do you support or oppose setting a $100 million annual cap on state film tax credits?

Q15: This year Georgia is projected to grant $3.5 billion in tax exemptions specifically to manufacturing companies. Some argue that these tax exemptions are necessary to attract and keep manufacturing companies in Georgia. Others argue that in granting exemptions, the state is losing out on a potential source of revenue to fund state priorities. Should lawmakers pass legislation to reduce the amount of tax exemptions offered to these companies?
